#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Priority*

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

### *Election/Restrictions*

2. Applicants' election without traverse of Species 7 (i.e. claims 11-12) in the reply filed on 14 April 2006 is acknowledged.
3. Claims 1-10, 13-78, and 80 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 14 April 2006.
4. Applicants are reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

### *Drawings*

5. The drawings were received on 27 October 2005. These drawings are acceptable.

***Claim Rejections - 35 USC § 102***

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claims 11 and 12 are rejected under 35 U.S.C. 102(b) as being anticipated by Koyama et al (US 2001/0048408 A1).

Regarding claim 11, Koyama discloses a signal line driver circuit [Fig. 1] comprising: a shift register [Fig. 1; First - Third Shift Registers]; a latch circuit [Fig. 1; LAT Portion], electrically connected to the shift register, comprising a plurality of pairs of current sources [Fig. 5B], each of which is configured to receive a set signal [Fig. 5B; Control Signals 1 & 2] and to control an output current value [Fig. 5B; Output] in response to the set signal (see Pages 5-6; Paragraphs 88-89); a changing over means [Fig. 1; 10a] electrically connected to the plurality of pairs of current sources and a plurality of signal lines [Fig. 1; S001 - S640]; wherein the changing over means selects one pair of current sources from the plurality of pairs of current sources for electrically connecting to each of the plurality of signal lines, and wherein the set signal is an output of the shift register (see Page 3; Paragraphs 50-53).

Regarding claim 12, this claim is rejected by the reasoning applied in rejecting claim 11; furthermore, Koyama discloses a first switch (see Fig. 5B) provided between the shift register and each of the plurality of pairs of current sources (see Pages 5-6; Paragraphs 88-89); a second

switch [Fig. 6; 20] provided between each of the plurality of pairs of current sources and the changing over means (see Page 6; Paragraphs 90-92); and wherein the first and second switches are controlled by the latch pulse [Fig. 1; LP] (see Page 3; Paragraphs 50-53).

### ***Response to Arguments***

8. Applicants' arguments with respect to amended claims 11 and 12 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

9. Applicants' amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicants are reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Art Unit: 2629

The applicants are hereby notified that the examiner's art unit has recently changed from Art Unit 2673 to Art Unit 2629, please direct all future correspondence accordingly. Thank you.
